

VANSHIKA GUPTA

Saharanpur, Uttar Pradesh

vanshi22gupta@gmail.com | +91-9045794308 | LinkedIn | GitHub | LeetCode | GeeksforGeeks

EDUCATION

- **GLA University, Mathura** Expected June 2027
Bachelor of Technology in Computer Science CGPA: 7.38
- **D.A.V. Public School, Saharanpur** 2023
Intermediate 76%
- **D.A.V. Public School, Saharanpur** 2021
High School 83%

INTERNSHIP & TRAINING EXPERIENCE

- **Micro Information Technology Services** June 2025
Front-End Development Intern
 - Built responsive web pages using HTML, CSS, and JavaScript.
 - Applied UI design principles and responsive layout best practices across devices.
- **GLA University & KVCH** June 2025 – July 2025
Industrial Training Full Stack Development using Java
 - Gained exposure to frontend and backend development concepts.
 - Worked with Java-based backend fundamentals and database connectivity.
 - Understood full-stack workflows and integration between UI and server logic.

PROJECTS

- **Sorting Algorithm Visualizer — GitHub — Live Demo**
JavaScript, HTML, CSS
 - Developed an interactive tool to visualize multiple sorting algorithms using animated bar charts.
 - Implemented algorithms including Bubble, Selection, Insertion, Merge, Quick, Heap, Shell, Counting, Radix, and Bucket Sort.
 - Added user controls for array size, sorting speed, and algorithm selection for better learning experience.
 - Demonstrated comparisons and swaps visually to help understand algorithm behavior and time complexity.
- **Tic Tac Toe Game — GitHub — Live Demo**
JavaScript, HTML, CSS
 - Developed a browser-based two-player Tic Tac Toe game with interactive UI.
 - Implemented win detection logic using predefined winning pattern combinations.
 - Added features like 30-second turn timer, undo move functionality, and dynamic score tracking.
 - Stored scores using localStorage and implemented reset and new game options for better gameplay.
- **Rock Paper Scissors Game — GitHub — Live Demo**
JavaScript, HTML, CSS
 - Built an interactive Rock-Paper-Scissors game with real-time gameplay updates.
 - Generated random computer moves using JavaScript and implemented win/lose/draw logic.
 - Added a countdown timer, pause/resume functionality, and score tracking using localStorage.
 - Updated UI dynamically using DOM manipulation for an engaging user experience.
- **Number Guessing Game — GitHub — Live Demo**
JavaScript, HTML, CSS
 - Developed an interactive number guessing game using random number generation.
 - Implemented input validation and conditional feedback for higher or lower guesses.
 - Used DOM manipulation to dynamically display results and attempts.
 - Added restart functionality to allow multiple gameplay attempts.

SKILLS

- Programming Languages: Java, JavaScript
- Web Development: HTML5, CSS3
- Concepts: Data Structures and Algorithms, Problem Solving
- Tools: Git, GitHub, VS Code
- Soft Skills: Teamwork, Time Management

ACHIEVEMENTS

- Solved 280+ Data Structures and Algorithms problems across LeetCode (145+) and GeeksforGeeks (137+).
- Earned 100 Days Coding Badge (2025) and maintained 50 Days Coding Streak (2024 and 2025).
- Completed 30 Days of Code challenge on HackerRank.
- Achieved Institute Rank 709 on GeeksforGeeks.

CO-CURRICULAR ACTIVITIES

- Participated in Web-X Design Competition during Technavya 2025 at GLA University, Mathura (January 2026).
